SUBJECT: Request for comments on the Draft "Proposed Amendment to the General Plan for the Maryland-Washington Regional District within Prince George's County" by January 16, 1978

We are enclosing for your review and comment a draft of "A Proposed Amendment to the General Plan for the Maryland-Washington Regional District within Prince George's County" that is currently being circulated by the Prince George's County Planning Board to interested community organizations and public agencies preparatory to formal action by both the County Planning Board and the County Council.

As the Draft indicates, this is a major proposal to amend the Prince George's County portion of the General Plan for the Maryland-Washington Regional District. Should the Proposed Amendment be adopted and approved, it would supersede all earlier versions of the General Plan as it applies to the Prince George's County portion of the District. In addition, the proposals in this Plan would govern all proposals appearing in local area plans and Countywide functional plans.

It is important, therefore, that the impact of the proposed amendment on Federal activities, interests and lone-range plans and programs in Prince George's County, if any, be identified and evaluated as a basis for possible Commission comments and recommendations to the Prince George's County Planning Board and Council. In order to do this, a copy of the Draft Amendment has been circulated to each of the Federal agencies having jurisdiction over buildings and/or land within Prince George's County for their review and comment prior to Commission submission of a consolidated Federal planning report to the County.

N-16

The Maryland-National Capital Park and Planning Commission and the Prince George's County District Council held joint public hearings on the Proposed Amendment on December 13, 1977 and December 15, 1977. We have requested that the hearing record remain open until the Commission can review the proposed amendment and Federal agency comments at its meeting on February 2, 1978. For that reason, we are requesting that you submit your agency's comments and/or suggestions to the Commission on or before January 16, 1978. This will enable all of the comments to be evaluated and reflected in the staff report and recommendations that are mailed to the Commission prior to its meetings.
